

Wild Ones Middle Tennessee Chapter Meeting

Tuesday, January 29, 2019 at 7:00 pm
Brentwood Library, Meeting Room A
8109 Concord Rd, Brentwood, TN 37027

Guest Speaker: Patricia Miller
Chair, Metro Tree Advisory Committee
Assisted by Brian Hendrix and Richard Hitt

Ash Trees and the Emerald Ash Borer

The Emerald Ash Borer (EAB) is a wood boring beetle native to northeast Asia. It was first detected in the U.S. and Canada in 2002 near the Detroit/Windsor area. Since then, the EAB has been detected in 35 states and the District of Columbia. North American ash trees are nearly defenseless against this beetle, so the death rate is nearly 100%. Wild Ones member Patricia Miller and other Wild Ones members on the Metro EAB

Speakers Bureau will discuss how the EAB kills ash trees, how to recognize ash trees and look for early signs of EAB infestation, and what options there are for treatment.

Doors open at 6:30 -- Everyone welcome!

This event is not a Library program
