

Wild Ones Middle Tennessee Chapter Meeting

Monday, February 22, 2021 at 7:00 pm

See chapter [web page](#) for Zoom details

Soil and the Importance of Soil Testing

Lucas Holman

Horticulture Extension Agent
Wilson County UT/TSU Extension

Lucas will explain why it is important to test soil for gardens and landscapes. He will also explain:

- how to collect and submit the soil for testing
- how to interpret the test results
- what to do based on the test results.

This will allow for targeted corrections to the soil that will yield better yards and landscapes.

At Holman Farms in Lebanon, TN, Lucas and his family raise Dorset sheep, Angus cattle, garlic, mums, daylilies, and lots of seasonal vegetables.

Zoom Meeting opens at 6:30 -- Everyone welcome!
